no, we didn't forget the open account between dj populist (aka dj bassseleka aka demochef - maximum respect; zh) and comfortnoise podcast! we had him almost one year ago in 012-0910, where he's presenting us his personal history of bassline music. now it's the same man, the same untiring passion for music, the same vast knowledge, the same immense vinyl collection - but it will be another tale: the history of reggae & dub. we're eagerly listening!
