marc d'arrigo (schall & rauch; zh) is one of these multitaskers that zürich is quite famous for: dj, vinyl lover, photographer, promoter - resourceful in many directions, open and alert towards all kind of new developments. marc has recently been playing for promoters such as motoguzzi, glueckstueck, goldgebrochenes, spezialmaterial and last but not least future is now festival 2011. his currently most precious and successful project is "schall & rauch" (with simian keiser), hosting parties in berlin & zürich and being invited to belgium & the netherlands. once again we do not need to specify a music genre that he represents: marc just plays what he wants to show us, and we can be sure that we'll be served well! typical for haute cuisine.
